northrop frye s anatomy of criticism 1957 is widely regarded as a masterpiece of literary theory the product of years of reading and reflection the book s value extends far beyond its impact on criticism as a whole ultimately it must be viewed as a synoptic defense of liberal learning by one of the twentieth century s most distinguished critics in this the twenty third volume of the collected works editor robert d denham presents the notebooks to the anatomy blue prints as it were for frye s comprehensive account of literary conventions composed from the late 1940s to 1956 the notebooks document the struggle frye underwent to provide a structure for his work this involved incorporating previously published essays and developing new material that would maintain the continuity of his argument this fully annotated volume contains seventeen holograph notebooks each illuminating some aspect of the grand structure that eventually emerged altogether the notebooks offer an intimate picture of frye s working process and a renewed appreciation for his magisterial accomplishment

for most of the twentieth century britain possessed both the world s largest merchant fleet and its most extensive overseas territories it is not surprising therefore that the royal navy always showed a particular interest in the cruiser a multi purpose warship needed in large numbers to defend trade routes and police the empire above all other types the cruiser s competing demands of quality and quantity placed a heavy burden on designers and for most of the inter war years britain sought to square this circle through international treaties restricting both size and numbers in the process she virtually invented the heavy cruiser and inspired the large 6in armed cruiser neither of which ironically served her best interests for the first time this book seeks to comprehend the full policy background from which a different and entirely original picture emerges of british cruiser development after the war the cruiser s role was reconsidered and the final chapters of the book cover modernisations the plans for missile armed ships and the convoluted process that turned the through deck cruiser into the invincible class light carriers with detailed appendices of ship data and illustrated in depth with photos and a d baker s specially commissioned plans british cruisers truly matches the lofty standards set by friedman s previous books on british destroyers

this volume presents the results of a comprehensive post excavation analysis of the stratigraphy geology metallurgical materials furnaces tuyeres finds pottery furnace lining stone tools as well as a synthesis of the copper smelting technology at agia varvara almyras cyprus

novice programmers can feel comfortable now when they begin developing applications in what appears to be the programming community s language of choice this book gives readers a chance to begin exploring this complex language by the time they finish they ll have the basics of c and object oriented technology under their belt includes an overview of the standard template library

area b in the southeastern part of the bronze age town of ayia irini kea preserves evidence for human activity from the mid early bronze age to the mid late bronze age or periods iii vii in the parlance of the site this volume summarizes the results of excavation in the area and provides an overview of the stratigraphy architecture and artifacts found in it owing to its status as one of the

best excavated and best documented sectors of the site area b also provides an excellent opportunity to consider diachronic changes in the ceramic assemblage through time analysis of macroscopic and petrographic fabrics and evaluation of how fabric ware and shape categories intersect enables a detailed diachronic study of changes in pottery production trade and consumption patterns at the site in view of broader shifts in aegean economy and society

romantic rock perched sea girt tintagel is a magical place that resonates with arthurian associations and the archaeological reality is no less intriguing than the legend investigation of the site began in the 1930s when dr raleigh radford uncovered remains of buildings with significant volumes of eastern mediterranean and north african pottery of fifth to seventh century date suggesting a western british site of iconic importance in the economy of the late antique and byzantine world the research presented in this book comes from renewed fieldwork carried out at this promontory site over several seasons between april 1990 and july 1999 using modern archaeological techniques together with previously unpublished work from radford s private archive along with that of his architect j a wright this work has demonstrated the complexity and variability of building forms and associated occupation at the site and the wide ranging connections of tintagel during the fifth to seventh centuries as reflected in the extensive ceramic assemblage while re examination of the great ditch has established that this is the largest promontory or hill top site of its period a unique glass assemblage and a stone with a probable imperial inscription to honorius later the object of graffiti from three post roman personages paternus coliavus and artognou serve as dramatic testimony to the cultural and literary milieu of high status dumnonian society in the post roman period
